COMPANY OVERVIEW

BURJUHN PROJECTS

Burjuhn Projects Limited is a construction and engineering company delivering residential development, project management, site supervision and civil works. We bring structure, accountability and engineering oversight to projects from planning through execution and handover.

OUR MISSION

To deliver reliable construction solutions through disciplined project management, quality workmanship and responsible use of resources.

OUR VISION

To be a trusted partner for residential and infrastructure projects, recognised for quality, integrity and dependable delivery.

OUR CORE VALUES

INTEGRITY

Honest communication and responsible decisions.

QUALITY

Attention to detail and sound workmanship.

ACCOUNTABILITY

Clear ownership of commitments and outcomes.

RELIABILITY

Consistent execution and timely communication.

INNOVATION

Practical thinking and continuous improvement.

PROFESSIONALISM + QUALITY SERVICE + OPTIMUM PRICING

A commitment to value, trust and satisfied customers.

End-to-end project expertise

WHAT WE DO

BURJUHN PROJECTS

01 **Residential Construction**

Building and delivery of residential developments with attention to function, finish and quality.

02 **Project Management**

Coordinating scope, procurement, programme, resources and project communication.

03 **Site Supervision**

On-site oversight, workmanship checks, progress monitoring and issue escalation.

04 **Infrastructure & Civil Works**

Civil engineering and infrastructure works delivered with planning and technical oversight.

A STRUCTURED DELIVERY PROCESS

01	02	03	04
Understand the brief	Plan & coordinate	Manage execution	Review & hand over

Built around accountability

HOW WE WORK

BURJUHN PROJECTS

- **Transparent communication**
  Clear updates on project progress, requirements, expectations and decisions.

- **Cost and schedule awareness**
  Planning, procurement coordination and progress monitoring to support informed delivery.

- **Engineering-led oversight**
  Technical understanding and structured supervision appropriate to project needs.

- **Collaborative delivery**
  Working closely with clients, consultants, vendors and site teams.

- **Safety and compliance**
  Maintaining a responsible approach to site practices and applicable requirements.

A coordinated project team

Successful delivery depends on clear roles, informed decisions and consistent communication between leadership, technical teams and project stakeholders.

Alexander Obioma Emeh

FOUNDER & CHIEF EXECUTIVE OFFICER | COREN-REGISTERED CIVIL ENGINEER

Alexander brings more than 10 years of experience across construction project management, structural design, civil works and infrastructure delivery. His approach emphasises diligence, attention to detail, practical problem-solving and the responsible management of project requirements.

LEADERSHIP PRINCIPLES

Professionalism
Clear communication and dependable conduct.

Quality service
Commitment to workmanship and detail.

Value consciousness
Considered decisions around cost and scope.

Collaboration
Working with clients and teams toward shared outcomes.

A PARTNER FOR CLIENTS AT HOME AND ABROAD

Burjuhn Projects understands the importance of trust, documentation and communication when clients are investing in property or coordinating projects from a distance. The team works to provide clear information and structured project oversight throughout delivery.

Selected project experience
